## Department of Mathematics & Statistics

### Graduate Studies Information Session

We invite all students interested in learning more about graduate studies in Mathematics and Statistics to join us for an afternoon information session on Friday, November 22<sup>nd</sup> 2019 in the [College Multidisciplinary Complex](#) (CMC). While the focus will be on our own programs, we will share general insights into the graduate application process (from the perspective of admissions) that will be of value to anyone considering graduate studies. All students are welcome to attend.

#### Schedule: Friday, November 22<sup>nd</sup>, 2019

- 1:00 – 1:30  
CMC 122      Check-in & Self-guided Tour of the Department  
We will have students and faculty stationed at a few key locations to tell you about the department and facilities.
- 1:30 – 2:45  
CMC 130      Information Session  
Learn about the admissions process and expectations from current and former graduate admissions directors and other professors. Includes a question and answer session.
- Break
- 3:00 – 4:00  
CMC 130      Colloquium  
The Department of Mathematics & Statistics regularly invites mathematicians from around the world to speak in the Colloquium. They are intended to offer some insight to a general audience culminating in news about cutting-edge research. We invite those interested to attend the day's colloquium by Zoran Šunić of Hofstra University.
- 4:00 – 5:00  
CMC 130      Graduate Student Presentation and Meet & Greet.  
Some of our current graduate students will introduce themselves and their interests and answer your questions from their perspective.

If you have questions about this information session, please contact Professor Curtin at [bcurtin@usf.edu](mailto:bcurtin@usf.edu).

---

We offer

**Master's Programs:** Mathematics, Mathematics with Applied Concentration, and Statistics

**Doctoral Program:** Mathematics with concentrations in Pure & Applied Mathematics and in Statistics.

**Financial Support:** We award 50 teaching and research assistantships to new and returning students.

**Deadlines:** Fall Term – February 15<sup>th</sup>; Spring Term – October 15<sup>th</sup>.
